

# Soundproof Cabinet

FOR HIGH CAPACITY HOMOGENIZERS

## Introduction

A reduction of the noise level of 3 dB(A) can seem like the noise level has been halved, which means that the APV reduction of 6 dB(A) provides for a greatly improved working environment for all plant operations staff.

## Reduced Noise Level

The soundproof cabinet reduces the noise level to a point at which hearing protection is no longer required.

The new soundproof cabinet has been designed to reduce noise emissions from the higher capacity homogenizers. In the case of the smaller homogenizers, existing noise levels are not significant.

# Overview

FOR HOMOGENIZERS	REMARKS
5 / 15 / 24 KW	NOT NECESSARY
37 / 55 / 75 KW	AVAILABLE
110 / 125 KW	SPECIAL FRONT CABINET
132T	NOT AVAILABLE
132Q	AVAILABLE
185 / 275 KW	INCLUDED
315	AVAILABLE
